

HAMMER DONAR.

SOFTGRIP. BLACK. AO TYPE.

HAMMER DONAR.

SOFTGRIP. BLACK. AO TYPE.

Exertion and use

Hammer Donar – This surgical Hammer is mainly used in orthopedics for various surgical requirements.

Softgrip – The new silicone handle gives the user a better feeling. The surgeon has a better handling and gives him more grip, even with wet gloves.

The new Hammer Donar with Softgrip absorbs more vibrations while striking and offers an ergonomic advantage.

The **Hammer Donar** is available in four weight classes:

300 g	U40-826-02	Hammer Donar, Softgrip, black, AO Type
500 g	U40-826-03	Hammer Donar, Softgrip, black, AO Type
700 g	U40-826-04	Hammer Donar, Softgrip, black, AO Type
1'000 g	U40-826-06	Hammer Donar, Softgrip, black, AO Type
